ILHIE Streamlines Public Health Reporting

Streamline Your Reporting to the Illinois Department of Public Health (IDPH)

The Illinois Health Information Exchange's (ILHIE's) Public Health Reporting service allows Eligible Professionals (EPs) to submit public health data through a single connection.

Conveniently, one connection facilitates reporting to two systems:

- Immunization Registry Reporting to I-CARE
- Syndromic Surveillance Reporting to BioSense

Save Time and Money Submit Your Public Health Data Through the ILHIE

ILHIE has a secure connection to IDPH systems. IDPH is ready to accept public health data from EPs participating in the EHR Incentive Program. EPs can save considerable time and potentially avoid high EHR vendor interface development costs by using ILHIE's Public Health Reporting services. ILHIE Direct and Integrated Direct can be used as a transport mechanism for public health data for as little as \$10 per month.

Connect Now!

- 1 Contact ILHIE at HFS.PHMU@illinois.gov to establish a secure connection to IDPH
- 2 Register your intent to submit public health data for meaningful use at <https://murs.illinois.gov/>
- 3 Submit data for validation by IDPH: EPs may receive technical support from ILHIE and IDPH staff
